INTERNSHIPS AND TRAINING

Skill Training with Internship **Luminar Technolab** **7 Months** _ Jun 2025 – Present, *Kochi,Kerala*

- Achieved 90% proficiency by applying industry-standard practices, optimizing workflows for a 100% improvement in outcomes, and gaining hands-on experience to enhance skills for future roles.

Internship 5.0 **Infosys Springboard** **10 weeks** _ Oct 2024 – Dec 2024, *Remote.*

- Participating in specialized training to develop technical and professional skills, gaining hands-on experience in project-based tasks and collaborating on live product sales to enhance communication, teamwork, and problem-solving abilities.

Project Intern **State Bank Of India** **8 Weeks** _ May 2024 – Aug 2024, *Kerala, India*

- Conducted market research and executed targeted marketing campaigns, achieving a 40% increase in user engagement and a 30% rise in transaction volumes for YONO and YONO Cash among SBI customers.

SKILLS

Programming Languages: Python, R

Database and Language: SQL

Frameworks: TensorFlow, Keras, PyTorch

Version Control Tools and IDE: Git, Github, Visual Studio Code, UI Path

Soft Skills: Problem Solving, Adaptability, Planning, Teamwork, Time Management, Analytical Thinking

EDUCATION

Bachelor of Science - Artificial Intelligence and Machine Learning,
Nehru Arts and Science College, Coimbatore, CGPA – 7.76 2022- 2025

Senior Secondary - Computer Science,
G.H.S.S. Pottassery, Percentage – 75% 2020- 2022

PROJECTS

- **Predicting Pregnancy Risks** **Infosys Springboard**
  - Developed a predictive model analyzing clinical indicators to classify risk levels, improving reliability through feature engineering.

  Tech stack used: Python, Pandas, Scikit-Learn, Matplotlib, Seaborn
- **Developing strategies to increase the use of YONO and YONO Cash among SBI customers** **State Bank of India**
  - Developed and executed innovative marketing strategies to increase user engagement and utilization of YONO at SBI.
- **DeepFake Detection, Age and Gender Detection** **Nehru Arts and Science College**
  - Created a deepfake detection system using Res-Next CNNs; implemented age/gender prediction via OpenCV and Deep Learning.

  Tech stack used: Python, Res-Next CNNs, LSTM networks, OpenCV

CERTIFICATIONS

- Applied Generative AI and NLP,LLM – Udemy,Coursera
- Python, PyTorch , PIL, OOP, Machine Learning – Udemy
- Python, Java, Neural Networks, TensorFlow, CNN – Great Learning

PROFESSIONAL CERTIFICATES :- – Coursera

- IBM AI Engineering
- Google Advanced Data Analytics
- Robotic Process Automation (RPA)
- Foundations of Data Structures and Algorithms Specialization
- Machine Learning Operations Specialization
- Algorithms Specialization
